Internship Experience

IBM SkillsBuild – CSRBOX Foundation

Jun 2024 – Jul 2024

AI-ML Intern

- Developed an AI-powered chatbot using IBM Watson Assistant for water conservation awareness, designing conversational flows for FAQs and user interactions.
- Integrated the chatbot into a responsive website, enabling real-time conversational support for end users.

Projects

Digital Banking System

Aug 2026

github.com/SwapnilAndDev046/DigitalBankingSystem

- Built a Spring Boot REST banking application using Java, PostgreSQL, JPA, and Hibernate for account and transaction management.
- Implemented JWT authentication, role-based authorization, account ownership checks, and transactional operations using Spring Security, @Transactional, Flyway, DTOs, validation, and custom exceptions.

E-Commerce Backend

Jul 2026

github.com/SwapnilAndDev046/EcommerceApplication

- Developed a Spring Boot REST API for products, shopping cart, orders, and order history using Java, JPA, and Hibernate.
- Implemented JWT authentication and role-based authorization using Spring Security.
- Designed MySQL entities and JPA relationships for users, products, carts, and orders, and tested REST APIs using Postman.

ApptiDude – MCQ EdTech App

Mar 2025

github.com/SwapnilAndDev046/ApptiDude-MCQ-generation-EdTech-App

- Developed a Flutter-based EdTech application with adaptive tests, topic-wise and mock tests, user authentication, learning modules, and test history tracking.
- Implemented performance-based question selection, result analysis, and local data persistence using Dart and SQLite.
